2. The Group considered a paper presented by [REDACTED], commenting on the requirement, recommended by this Working Group, that CIA employees in the Development Program sign a written agreement to make a career of employment with CIA. The paper proposed that a written agreement of intent to make a career of employment with CIA would be more appropriate. This intent is, in fact, what the Working Group meant to state. The recommendation was corrected accordingly. (see attached)

3. The Working Group completed the consideration of a redraft of the paper on "Selection Criteria....". A final draft will be presented to the Working Group by [REDACTED] on Tuesday, 8 January 1952 for approval prior to submittal to the Career Service Committee.
